

The bridge builders are at work on the cut off road.

Mayor Banks is confined to his home with a serious attack of neuritis of the stomach.

The pastor of the city have agreed to have the Sunday evening services begin at 7:30 o'clock.

The "Pilot Knob" on the corner of Iron Avenue and 7th street should have a flag on its top.

A. Keefe has sold his three Iron Avenue lots to D. King Gotwald and Charles S. Kurtz, for \$5,000.00.

Dr. W. R. Emery has rented Room No. 1 in the Grier Block. He is fitting it up in good style for office purposes.

About one-third of the grading for the Rock Island and Santa Fe roads, between Solomon and Salina, is completed.

Architect Wilmarth has prepared plans for a \$3,000 residence for Mrs. J. O. Wilson to be erected on Ash street lots.

Dr. A. V. Campbell and wife of St. Louis, with their friends J. H. Gentry and wife, are in the city—guests of Mrs. Werry.

Mr. Walt, of Summit county, O., is visiting his brother A. C. Walt, Esq., of this city. He talks some of looking in Coffey county.

Native peaches are surprisingly numerous, wagon load after wagon load appears on our streets each day. The natives sell at \$1.50 per bushel.

Lekell & Engstrom, of McPherson—former Salina residents—are starting a store in Herington, which they will stock with clothing, boots and shoes.

The Solomon Sentinel says that the Santa Fe and Rock Island tracks will run in close proximity for over twenty miles between Abilene and Salina.

Freddie Goodnow, youngest son of Mr. and Mrs. Frank Goodnow, fell out of a carriage last evening and broke his collar bone.—*Nurwell (C) Reflector.*

Mrs. A. A. Austin, who recently joined a Boston excursion to Europe goes from England directly to Berlin, and other German cities, and thence to Rome.

Mother Bickedyke is to attend the St. Louis reunion, after which she will make her home with her son, Prof. Bickedyke, at Bunker Hill, Russell county.

The city council met last evening and canvassed the vote for councilman in the second ward. The official count gives J. Weaver 91 votes, against Willis Bristol 42.

A total of 114 votes was cast yesterday in the second ward, divided as follows: Jonathan Weaver, 74; Willis Bristol, 40; Judge Weaver will make an excellent councilman.

The Salina pavements at night with their hundreds of promenaders in the gas and are light—present a gay and beautiful sight not seen since this side of Kansas City. Verily we are a metropolis!

I. O. Middaugh has sold the Asaria Argos to D. Sargent of Liberty township. Mr. Sargent is an excellent printer and we are disposed to believe he will furnish the people of Asaria with a good paper.

A. Keefe is moving the Moran dwelling from Elm street to State street, in the rear of his Iron avenue property. He will make a two-story building of it, and when finished it will be a pleasant residence.

Mrs. P. H. Allison has returned from Talladega, in the mountains of Alabama, where her husband and herself have spent the summer. Mr. Allison is improved in health, and will soon return.

Wheat sowing among the farmers is going ahead with great vigor. In some localities this part of the farmers' work has been finished. It is estimated that the acreage sown is larger than last year. The wheat will be utilized largely for postage.

Dr. Dunn and family, of Minneapolis have gone to Lawrence to reside. The doctor removed from Salina to Minneapolis about 1872. He published the *Minneapolis* at that place several years and showed himself to be an able editor and a strong newspaper man.

C. C. Daily for some time past employed as dispenser in Gem drug store, will return to his home in Salina to-day. All who have become acquainted with Charley regret his departure, while wishing him abundant success in his future career.—*Solomon Sentinel.*

Frank D. Thompson came in last evening from Nevada, Iowa, to stop a few days with Tanner, Frater, Will, and the Abbott brothers—all of them old Nevada boys. He is a very pleasant gentleman and fully sustains the good reputation that Nevada has already established in Salina.

Chas. Swift arrived last evening from Denver. Charlie was snare drummer in the old Germania band a few years ago. He leaves in a few days for Junction City, where he will join the Fort Riley band for their St. Louis encampment, after which he expects to come to Salina and make his home here.

The council will be fortified in its action by an endorsement of the citizens, if it contracts with Mr. Pike to furnish several are lamps for street-lighting purposes. Salina has never looked more invitingly, the gas lamp is not sufficient in these days.

Dr. A. V. Campbell, of the firm of W. T. Campbell & Son, oculists and artists, St. Louis, is in the city the guest of Henry Gentry. This is his first trip west and he asserts very freely that he is pleased with Kansas and particularly Salina. He will remain here some time as he is out on a sort of a recuperating trip.

The fountain is a great attraction at the Park. Its silver spray is wafted by the breeze in all directions, and is not disagreeable to the heated faces that stand admiringly by. The seats on the luxuriant grass under the old trees—never looked more inviting. Surely our Park attractions grow more numerous each year.

A freight train on the Missouri Pacific road at Marquette jumped the track yesterday, and an employee by the name of Benj. Francis had his left leg broke in two places just above the ankle joint. He was brought to Salina and spent last night at the Metropolitan. Dr. Cooley, the M. P. surgeon, setting the fracture, and this morning he was sent to the company's hospital at Sedalia.

The case brought against Ida Reinhold, (a Mr. Ophie complaining witness) charging the woman with having stolen \$9 in cash from Mr. M. B. Quincy, went against the prosecution. The action was based mostly on supposition without any real knowledge. C. B. Quincy appeared for the state and J. H. Seefeld for the defense.

Mr. A. G. Magnusson, of Lindsborg, who is attending our Fair, informs us that the project is there will be 500 students in attendance at Bethany College this year. The Augustana College, of Rock Island, has an attendance of 200. Bethany will thus be the leading Swedish Lutheran College in America.

W. R. Emery, M. D., of St. Louis, Mo., called upon us to-day. He comes to Salina to locate in his profession, and is stopping at the Grand Central for a few days, till his family arrives and he becomes settled. We found him to be a pleasant gentleman. He is a physician of many years practice.

Philip Young and family returned from Salina to their home in Milford, yesterday. Mrs. Young's father, Mr. Reinhold, whose illness called them thither, died Sunday night of malarial fever. Mr. Reinhold was at one time a resident of this city, being foreman of the U. P. section gang—*Clayton Times.*

Mr. L. B. Johns, of the Abilene Carriage Works, is in the city in company with Mr. Philo Phelon. Mr. Johns informs us that he will probably open a carriage establishment in this city at the Dickinson factory, and that Mr. Phelon will have charge of it. He promised to inform us more definitely about the project in a day or so.

Mr. D. B. Powers was prostrated yesterday afternoon by a heart affection, which once affected him in the same manner at Denver. In the heat and excitement of the cricket race, in which he was deeply interested, he fell insensible near the grand stand, and it was some minutes before he was fully resuscitated so as to be able to be removed. He was immediately taken from the grounds. He has since fully recovered.

Capt. E. R. Millett, wife and daughter, and Miss Butler, left on the Missouri Pacific last evening for Ida Wild ranch. They were delighted with Salina, as this was the captain's first visit here since the Texas cattle days of years ago. While in the city they were guests of J. O. Wilson and C. B. Kirtland. This famous ranch extends within its boundary lines 25,000 acres of as good land as lies in Kansas.

John Maher, the young gentleman picked up Wednesday night by the city marshal suffering with pneumonia, died last night at 12 o'clock. Albert Ross, who was nursing him, says he passed away with but very little suffering, and was partially out of his mind as he neared his end and called for some of his boy comrades and father at Juliet, Ill. His age was about 20 or 22 years. All that could be done was done for him by the city authorities during his illness.

Some of the weather seers are predicting an exceedingly cold winter. They assume that one extreme follows another, and as the summer was intensely hot the winter must follow suit and be intensely cold. We wish the weather prophets would agree. We chronicled a few days ago the prediction of Prophet Innan and some others that the winter would be mild. It might be to compromise the matter and be prepared with the usual amount of coal. If the weather is mild, the coal will keep—if it is under lock and key.

A young girl about 12 years of age was knocked down by a passing carriage yesterday afternoon at Oak Dale park, both wheels passing over her right ankle. Chas. S. Martin was one of the occupants of the carriage and picked the child up. She seemed dazed at first and very much frightened. Dr. O. B. Campbell was called and after a hasty examination found no bones broken. Mr. Martin then took the child in the carriage and went in search of her father. The girl's name was not ascertained.

People are wild at Ellsworth over the rock salt find. It was struck at 730 feet and yesterday they had gone down 850 feet and were still in salt of a solid quality. Mr. H. G. Johnson, the contractor for the work received word this morning from E. F. Hoseney, secretary of the Ellsworth Mining company, that the company confidently expects to strike both oil and gas and adds "just think of 130 feet of solid salt and not through it yet." This important find will doubtless lead other places to invest in similar enterprises. We notice that the Abilene Gazette is urging the Abilene people in each issue of that paper to organize a company for such purpose.

LATER—Word received on the noon train states that the rock salt vein has been penetrated, and that it measures 180 feet.

The Solomon Presbyterian assembly in Ellsworth on last Monday and Tuesday were present from Salina Rev. Ross Stevenson, Rev. Wm. Bishop and Rev. W. A. Stinkins. After the delivery of the sermon by Rev. J. E. Layton, of Ellsworth, announcing the congregation of the Presbyterian, he said they had met specially at that place in consideration of its being the 50th anniversary of the ordination of Rev. Levi Sternberg, D. D., and that the said brother had been invited to prepare a written statement of reminiscences of his fifty years service. Dr. Sternberg was then introduced and read a paper after which Dr. William Bishop, of Salina, was introduced and after a brief address on the important scientific, secular, literary and religious progress of the last fifty years, presented Dr. Sternberg with a gold headed walking stick, inscribed as follows:

"From Solomon Presbyterian, 'Rev. Levi Sternberg, D. D., 1827-1887,' and in his 60th birthday letter, 'Shelba Unishankka Hamak Yankuane.' Taken from Ps. 23-4, 'Thy rod and thy staff, they comfort me,' as a token of the Presbytery's esteem and brotherly love for Dr. Sternberg, who accepted of the offering in the same kindly spirit in which it was tendered. At the close of the last address the congregation united in singing, 'Blest be the tie that binds our hearts in Christian love.' The moderator then pronounced the benediction.

#### ONE OF THE HANDSOMEST.

The Federal Residence of Mr. Oscar Seitz, now in course of erection.

Of the many residences that have been, and are now in course of construction in this city, the one being erected for Mr. Oscar Seitz deserves special mention. The plan of the ground floor represents a cube broken by projections and angles. The main entrance is located at the east front and opens into a handsomely finished vestibule. The outer and inner set of doors are of walnut, elegantly carved, and when open fold into pockets prepared for them. The floor of the vestibule is of white and black marble, with a border of variegated colors. The ceiling will be grained and paneled, and the whole artistically finished in hard oil finish. Separating the vestibule from the hall will be another set of doors, the panels and transoms of which will be filled with fine cathedral and enameled glass.

The parlor and sitting rooms have large sliding doors opening into the hall, while the dining room and sitting rooms are also connected by this means, thus throwing three rooms and the hall into one. This feature is commendable for many reasons, but uppermost because in the event of a home entertainment the rooms will be brought into excellent service.

In the east side of the parlor a handsomely carved retreat is placed which is lighted by four windows. The dining room has a large bay window, which has been especially designed to serve as a conservatory. A side entrance, accessible from a piazza, is also provided to the dining room. Large French windows open from the sitting room on to the front piazza, thus affording excellent means of egress.

An elegantly finished stair is located in the front hall. The library is located in the southwest corner of the house, and has every necessary appendage to make it a commodious and cheerful apartment.

Each of the rooms named above have large fire places and are finished with plaster cornices and hardwood finish and floors.

The latest and most fashionable finish will be used and colors applied in accordance with the laws of harmony, thus enhancing the architectural effects.

A rear hall and stairway is so arranged that it can be reached without going through any of the rooms. The kitchen, scullery and pantry apartments are a model of compactness and every feature that could add convenience has been considered. In the second story are six bed rooms, each with a fire place and closet, with dressing rooms between the bedrooms. The family bath room is located in the rear portion of the house near the children's rooms. In it is a linen and medicine closet. The water closet is separated from the bath room and thoroughly ventilated.

A sick room is provided on the south west corner of the house, having a warm sunny exposure, well lighted and with the widest possible range of vision. The house will be heated by steam, radiators having bells to each apartment. The basement has been arranged for a laundry, drying room, vegetable and various other department.

The plumbing and sanitary work in the building will be of the most improved kinds, having been especially designed by the architects.

The exterior of the building promises to be something of a different style than that usually employed, and will be devoid of all cheap and flimsy ornaments so commonly in use.

St. Louis press brick and Warrensburg blue sandstone are used for the exterior walls and trimmings and are employed with much taste. The east front there will be a tower of such a style as is in keeping with the class of architecture employed. Messrs. Abbott & Holmsted & Co. of this city are the architects and Blackledge, Crawford & Co. the contractors.

A band of gallant Shriners marched and counter-marched upon Santa Fe and Iron, yesterday, much to the amusement and edification of the small boys who followed and the pedestrians who looked on. It was a common observation, "What foolishness is this?" Nobody could answer. It might have been a procession of Greeks, celebrating victory, a "Roman triumph," a party of Christmas revelers, or even a party of strange non-descripts, whom Rip saw in the Catskills. They made music on instruments not known to the brass band, and yet there were horns and cymbals and "dofunnys" of all kinds. The Dutch pipe was one, the cymbal player tripped along like a goddess of the fantastic toe. The players clung tenaciously to a tune having some reference to Marching through Georgia; and it was the same old thing—whether played in front of an undertaking establishment or drug store. Several gentlemen were serenaded—among others that old and reliable Arab, Sheik Samgrudwoli. Suffice it to say, the instruments which filled the air with entrancing melody are thirty in number, were ordered from Chicago, and are to be used in striking the Denverites with terror when the Salina Shriners go on their approaching trip. Shiek P. Q. Bond—not a Shriner by birth or education, but a probable convert to the belief—is engaged as leader. He is a famous player upon "wind instruments"—especially of the boom variety, and will make the very winds of heaven—through the bellows of the Shriners—be in perfect sympathy.

Hon. C. E. Faulkner recently wrote W. H. Newman, General Traffic Manager of the Missouri Pacific, asking that the company make a reduced rate on corn shipments from one point to another within the state; also from points on tide into the state. The matter was referred by Mr. Newman to C. V. Lewis, assistant general freight agent—having charge of the freight business in Kansas—who made the following reply:

KANSAS CITY, Mo. Aug. 24, 1887.

C. E. FAULKNER, Esq.,

KAR. DEAR SIR:—Yours of the 17th inst., has been referred to this office by Oscar G. Murray, freight traffic manager, and in reply thereto we say that a meeting was held at Topeka on the 22d inst., which fully discussed the corn question in state of Kansas, and a reduction was agreed upon between all stations in the state of Kansas, making rates less than local distance tariff on corn in car loads between Kansas cities, as taking effect October 1st, and remaining in force until April 30th. From reports that we have received from all stations in the state of Kansas, I think there is enough within the state to furnish the demands without importing from adjoining states. The action taken by me, I think, will fully cover the request made in your letter.

Yours truly,

C. V. LEWIS.

A. G. F. A.

#### THE FAIR.

The First Day Indicates a Satisfactory Meeting this Year.

To-day the fair opened for their 1887 season, and every indication points to a successful meeting. As stated in yesterday's *Journal*, the horse department was never better represented, and the races will be interesting every day, as already there are entries enough to insure spirited contests each day. The association has labored under many disadvantages this year, the drought being great hindrance to a successful meeting, and yet not withstanding all the drawbacks, they have, by great energy, succeeded far beyond their most sanguine expectations. Agricultural hall is well filled with specimens of wheat, oats, rye, corn, and all sorts of grain, that will compare favorably with the most prosperous years. The fruit department is well filled, and such samples as are displayed in this hall, cannot be produced except in a fruit country.

In floral hall, the fancy work department is finely filled, and as remarked by one of the directors, it is the best display ever had. In this hall A. G. Schiele has enclosed in a frame a display of his different styles of horse shoes, which at once stamps the maker as an artist of the best abilities.

Hans & Tobey have an elegant display of fancy boots and shoes, and Arthur Wright has suspended to the wall specimens of his ability in fancy wood work. They are as fine as ever seen, and attract universal attention. E. Lambotte comes next with a display of pictures, making a specialty of his frame work. Vernon & Bond occupy the southeast corner of the hall with their celebrated Mason & Hamlin pianos and organs, and a sewing department under the supervision of T. M. Eastman. Every body stops and takes a good look at these goods.

The center of the room is brilliantly filled with the handwork of the ladies, such as handsome quilts, fine needle work of all kinds, and the most attractive feature of this department is the pencil work of Miss Amelia A. Wysang, in imitation of steel plate work, and the crayon picture of the three little daughters of R. K. Jeffries—Kate, Tillie and Marion.

Capt. Parker is on hand with a fine collection of organs, among which are the famous Chapel and Estey make. Mrs. J. K. Dolan has a good display of fancy millinery, and there is a nice musical display. Also in this hall A. G. Gates has a rich display of pen drawing and S. Pearson is spreading a tent in which to show his variety of buggies.

The candy man, the flying Dutchman machine, cane man, hot peanut roaster, and last but not least, the rag baby man are all on the ground, ready for business.

#### SECOND DAY.

Although yesterday was the first day of the fair, an immense crowd was on the grounds, and at one time it was estimated that fully 2,000 people were in attendance. The stock was looked at, floral and agricultural halls visited by the throngs and all seemed well pleased with what they saw. The races entertained the audience in the afternoon and the first that was called was the two year old trot. They were all fine starters, Wedgewood, Morning Star, Louisiana, Gussie O. Pulling and George A.

Gussie Pulling led in the first half mile, passing the pole in 1:40, and continuing in the lead, finished the mile in 3:15 with Morning Star second. George A. third, Wedgewood fourth and Louisiana fifth. The purse was for \$75, which was divided into three parts, 30, 30 and 10 per cent. This race was won by Wedgman, two best out of three, time 3:15.

The one-year-old trotting race, was the next to be decided. In this race there were three entries. The race and purse was won by Sister, owned by Mr. Rogers. This was a half-mile race. Winning time, 1:50 and 1:48.

The 1:55 pacing race was called and Crickel, Burkholder and Sam. H. The first heat was won by Crickel, Burkholder taking the second. It being late in the evening, the third heat was postponed until to-day, immediately after dinner.

To-morrow's programme on the track will be an interesting one, as the following races will come off.

Free for all trotting and pacing, \$200.

Three minute class, trotting, \$150.

Three-year-old trotting. Open to Salina, Dickinson, McPherson, Ft. Worth and Atawacaw, \$150.00.

Male trotting between Kingman's Glick horse and Teague's Bound horse for \$50 a side.

In the free for all a hot contest may be expected, as Everedmont, Henry O., Bessie Curtis, Burkholder, and Ernestine are entered, and will start.

An immense crowd is in attendance to-day, and the displays have been greatly improved and re-inforced since yesterday.

#### THIRD DAY.

The forenoon was passed by awarding the premiums on the draft horses, and also on the cattle, by the committee appointed for that purpose. At eleven o'clock the single driver contest was called, and C. H. Kirtland's horse "Colonel" took first money. Vernon & Bond carried off the first premium on their collection of musical instruments and sewing machines, over all competitors.

Soon after dinner the people began flocking to the park, and the crowd was variously estimated from 4,000 to 5,000. The races were the best and most exciting that have been on our track for some time. The postponed pacing race was called first, and Crickel took first money, Burkholder coming in for second. Time 2:55.

The four year old trot was then called, and there were four starters: Josephus, Godelia, Kilder and Jip. Josephus and Jip came in neck and neck for second money, while Godelia took in first money with ease.

The gentlemen's roadster contest was the best race of the season. There were four entries—the race being open only to Salina county—Joe Dandy, by Parsons; Rocky, by F. Kingman; Bound, by Teague, and Glick, by Frank Kingman. Rocky won the first heat with ease, with Glick second, Bound third, and Joe Dandy, fourth. The next heat Rocky and Glick came out neck and neck, with Rocky a little in the lead, Joe Dandy third, and Bound fourth.

#### IN THE THIRD HEAT JOE DANDY CAME TO THE FRONT IN GOOD SHAPE, AND SURPRISED EVERYBODY BY WINNING THE HEAT IN 3:04, WITH GLICK SECOND, BOUND THIRD AND ROCKY FOURTH—HE HAVING COME PARTIALLY UNLITLED, THUS LOSING HIS PLACE. THE NEXT TWO HEATS WERE WON BY JOE DANDY, AMID THE WILDEST DEMONSTRATIONS FROM THE SPECTATORS.

Houston Parsons drove him, and it was the first race both for the driver and horse. Joe Dandy is only a three year old colt, and has had but little training, while some of his competitors have been handled very carefully for some time. He certainly gives promise of making an excellent animal, and his winning was a complete surprise to all.

In the bicycle race L. A. Abbott won both heats. The riding by all the contestants was good, and the only accident was the downfall of Mr. Conrad, but he escaped without injury.

In the Saline county stallion race there were three entries, Grey Bashaw, by Holcomb, Steel, by Austin, and Savoy by White. Bashaw won the race by getting the three first heats. It was not a test of speed so far as he was concerned, but simply to keep ahead of his competitors. He is a magnificent horse, and moves with great ease and power, and his owner Dr. Holcomb has unlimited confidence in him. When he goes in a race, he will win if he is the fastest horse, as his honest trotting indicates the way he is handled by his owner—either to win or lose according to his merits. Steel also trotted splendidly and would have made a fine showing if he had not got into such close company. Bashaw's future is a bright one, as he is one of the fastest stallions on the turf and only eight years old. Steel is a fine young three year old, and also has a good future. The first heat was trotted in 3:01, the second in 2:59, and the third in 2:54. Steel having Bashaw on the last heat, and making his mile in 2:55.

The last race of the day was the pony running race, with three entries, Chapman winning. The purse was for \$25, with an entrance fee of \$5.00.

At this writing men are busy at work draining the track, and if it is at all possible, the races will come off as advertised this afternoon. The rain last night was an unwelcome visitor, as this would have undoubtedly been by far the largest day of the fair, had the weather remained pleasant.

The Missouri Pacific Offers Rates.

Mr. G. H. Bowers, the agent of the Missouri Pacific in this city, furnishes some figures with reference to the fare to the St. Louis Encampment which will be well worth of consideration by the G. A. R. men. He says the Rock Island round trip fare figures up as follows: \$3.90 from Herington to Kansas City; \$7.50 from Kansas City to St. Louis; \$2.00 from Salina to Herington—making \$13.90 in all. The Missouri Pacific Co. agreed to make the rate \$12.50—the ticket being good from Salina through and return. A chair car will be furnished and go through without charge (provided 25 passengers are guaranteed)—free of cost! The tickets will be good from the 24th of September (when the excursion starts) until Oct. 7th; and those who want to go to from St. Louis to Eastern points can have their tickets extended to the 31st of October, by applying to the Passenger Commissioner, who will have his headquarters convenient of access for the Kansas boys. A sleeper will also be furnished to St. Louis, provided it can be filled, at the usual sleeping car rates. The offer of the Missouri Pacific is certainly a good one and should be accepted by the G. A. R. boys—as they can go through by the chair car from Salina, without change, as well as at a cheaper rate. We are inclined to think the boys will accept Mr. Bowers' offer.

#### A PLEASANT WEDDING.

A large number of ladies and quite a sprinkling of gentlemen assembled last evening at the home of Mr. and Mrs. A. Wellington, South Eighth street, to enjoy the very agreeable and entertaining musicale given by the pupils of Prof. W. H. Packard. The programme was as follows:

Piano Duets—Mrs. B. Brown and Miss E. Belleville.

Recreation March—Miss Veda Anderson. "Tripping through the Daisies".

Swedish Wedding March—Miss A. Anderson, Gavotte Stephanie—Mr. and Mrs. Packard and Mr. J. Iden.

Second Nocturnal—Miss Grace Wellington. Duets (vocal)—"I would that my love"—Miss Eleanor Spivey and Edith Sampson. Spanish Dance—Miss Fannie Wideman. Second Waltz de Concert—Miss Birdie Watson. Vocal Solo—"All the Ferry"—Miss Edith Sampson. Hungarian Rhapsody, No. 2—Miss E. Belleville. Vocal Solo—"Fly forth, gentle Dove"—Miss Eleanor Spivey. La Rose—Mrs. B. Brown.

The proficiency of the pupils at the piano was very marked, and compliments of a very flattering character were poured upon both scholars and instructor. Prof. Packard takes the highest rank as a teacher of music. The pleasant musical feast was brought to a close by a "voluntary" from Messrs. Bond, Whitman, Lovitt and Wellington—showered in the "leafy covert" of the porch.

Prof. O. G. Klinger, whose arrival in our city we noticed several days ago, will open his select school in the Meier building on the 19th inst. He found no difficulty whatever in getting the required number of pupils—ten—and could easily have secured three times as many had he not determined beforehand to limit the number. He believes in development not cram, and feels that with a small number of boys he can fully carry out his ideas of teaching. The following gentlemen are patrons of his school: Messrs. Crippen, Scott, Teague, Faulkner, Seitz, Martin, Addison, Wellsinger, Rash and Ober.

That's the Way to Talk.

We take it all back, everything we ever said about you, Brother Rogers, and we will set up the soda water the next time you visit Salina.

The boom has commenced to go thundering down the ages. At Salina suckers stand on the railroad platform and endeavor to railroad \$500 options at \$50.—*Junction City Reflector.*

The Union is evidently jealous of Salina's prosperity. All the misrepresentation the Union can devise and do will not cry down Salina's popularity from doubling its population in the next few years. Abilene and Salina are the twin cities of Kansas. The brilliant example of energy and pluck the galaxy of states ever produced. There, now Mr. Union, fire some more shots if you feel like it, and as often as you please.—*Abilene Gazette.*

#### S. C. SERVICE.

HOUSE Signs, Prints and Carriage Paints. Machine painting and paper hanging done. Estimates and charges.

No. 35 Fifth street, Salina, Kansas.

R. ABBOTT, Salina, Kans.

ABBOTT & ROHRSCHILD, ARCHITECTS AND SUPERINTENDENTS.

ST. LOUIS and SALINA, KANS.

Designs in Queen Anne, Romanesque, Renaissance and Eastlake Residences executed. Satisfaction guaranteed.

W. F. QUINCY

MOORE & QUINBY, ATTORNEYS-AT-LAW
